Mac -

Attached is a copy of the computer run which should reflect ODP's space requirements. Make any corrections on the run.

Please note which branches would be located in the existing building now that the remaining centers have been specified. (I need this information immediately.) Also, in the "comment" column, I would like to note which level the offices should be located on and who they should be located next to. Some of this information already exists on the run.

If you have any questions, please call me on extension [Redacted]
